The Mairangi and Castor Bays Parish on the Auckland North Shore is seeking a full time nationally ordained minister. The Parish Profile together with the Mission Plan and a summary of our situation can be viewed on the parish website: www.bayspresbyterian.org.nz

What we would value in our Minister

- A person who is able to bring the word of God alive and into a meaningful context for today's world and to lead in the exploration of current theological thinking and developments.
- A person who is able to minister and provide appropriate pastoral support to all ages within our congregation where there is both a respect for and tolerance of theological diversity.
- A person with strong community interests who sees the role that our church has in the community, who is prepared to actively promote and take action in that role including working to see that our church becomes more reflective of the ethnic mix in our community.
- A person who is appreciative of the importance of the wider church and who is open to working in partnership with other churches including team ministry where this is agreed to.
